(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 54-003848 and JP 55-5938.

Both of the cited prior arts disclose water-soluble polyester resins comprising condensation reaction products of a dicarboxylic acid, a glycol, a water-solubility imparting component such as SSIPA, and a reactive P-containing component.
